### 內容摘要：

A beautifully simple book for small children where transforming pages reveal ten things that everyone can do to help conserve their world. Many of them, such as turning off the television properly, walking to school and turning off lights when leaving a room, are about conserving energy. Others, such as feeding the birds in winter and growing plants from seed, will encourage an understanding of nature and conservation.

*This is a book about farm animals, and what happens during one year on a farm.*

*In January, the cows stay in the barnyard, and the chickens don't lay many eggs. By March, you can tell spring is coming: the barn is filled with baby animals. Month by month, the animals at Maple Hill Farm sense the changing seasons and respond to the changes.*
