## 內容摘要：

Where do babies come from? Mom explains that you can make babies out of gingerbread, grow them from seeds, or squeeze them out of tubes, while Dad says you can find babies under rocks.

Amused by their parents' silly answers, the children decide to set the adults straight. In a series of zany diagrams, the children show the adults exactly where babies come from.

This is a funny book that will delight, entertain, and educate the entire family.
